Faculty (9902)

Possible diversity-related interview questions:

Experimental Particle Physics, Astrophysics/Particle Astrophysics/Cosmology

1. Please give an example of how you have demonstrated scientific leadership and how that leadership role relates to the institution’s commitment to equity and diversity?

2. Do you have any experience working on initiatives to attract students to the STEM fields?

3. Can you please give an example of how you directed a student from a different background to identify research opportunities?

4. Provide an example of a time you communicated a complex concept to an individual who spoke English as a second language.
