

Training Coordinator (9354)

Possible diversity-related interview questions:

1. Please discuss your experience conducting training to diverse groups and how you integrated the concept of difference or diversity into the training.
2. Have you had experience working with individuals from diverse cultures and communities in a public health setting?
3. Describe your experience working with faculty members from diverse backgrounds. In that context please describe how you resolved issues or conflicts among individuals from different backgrounds.
4. Do you have experience working with adolescents from a variety of cultural and socio-economic backgrounds? Please talk about what you learned from this specific kind of experience.
